

Activity Tables

Selecting an activity table that stands up to rigorous use, yet offers value and options can be difficult. Educators and business executives want style and finish choices, yet tables must endure roughhousing youngsters or grueling training sessions. From finger painting to testing or training, KI meets your needs with an extensive array of tables. ■ Sturdy Exeter and Oxford tables combine

Vinyl bullnose edge is securely attached to the solid high-density particle board core with glue and staples. Edge won't peel off or pull apart and surfaces won't sag or warp.

value, quality and selection. These KI activity tables come offered in more shapes, leg styles, sizes, and heights, as well as more

Oxford Adjustable Leg option adjusts in one-inch increments. Standard adjusts from 21-29 inches. Junior adjusts from 15-23 inches.

Legs attach directly to the surface with KI's unique one-piece keyhole method. This method provides fast connection yet greater strength without the need for the two-piece system offered by others.

surface, leg and edge colors than any other tables in the industry.

Exeter fixed "H" legs offer superior strength and stability. Oxford legs provide the flexibility of a fixed or adjustable leg and seating on all sides of the table. Both styles feature self-leveling glides.

Surface laminates feature wood grain, solid or patterned finishes.

Legs with leveling glides are available in bright, duplex-nickel chrome or colorful, durable paint finishes. Edges come in a multitude of colors that contrast or coordinate with the legs. In addition, KI's ten-year warranty assures the lowest possible lifecycle costs.
