

Balance™ Overhead Storage ■

Balance overhead. An open and shut case for easy good looks.

- Easy to open.
- Easy to close.
- Easy on the eyes.

WORKING  
FOR  
YOU

■ The perfect combination of good looks and great moves.

Balance™ Overhead Storage

You're sitting at your workstation and you need a file. Without even moving from your chair, you gently tug the bottom door of your Balance™ overhead storage unit. The top and bottom doors both swing open easily and quietly. You look through your standard files. Your A4 files. Then, you see the document you want in a foolscap binder. You slip the document out. You give one door a light push and both doors close back together again.

That's Balance overhead.

It's the easiest, most attractive storage unit ever. The perfect combination of good looks and great moves.

Open it up without getting up.

Open and close it from a seated or standing position. It's wheelchair accessible and ADA compliant. Easy for anyone to open and close – another important ADA feature. Open either door and both doors swing open simultaneously. The spring-assisted mechanism ensures smooth, silent operation for a lifetime.

Choose from a wide variety of color combinations to create the look you desire. The cabinet is available in all KI powder coat colors. The door is available in five of the KI standard colors, several wood veneer stains, vertical surface fabrics, and standard laminates. Or go translucent for ultimate appeal!
