

Dorsal® 1090

To maximize learning potential, students need comfortable seating and ample workspace. The Dorsal 1090 Tablet Arm Chair provides unparalleled comfort and three tablet arm sizes to meet a variety of needs. ■ Engineered for proper back support, the articulating backrest adapts to the user in relaxed and upright positions. The body-conforming, molded shell provides exceptional comfort and equalizes weight distribution. Shells are available with upholstered seat and back cushions, upholstered seat cushions only or without upholstery. Models without upholstery have a matte finish with textured body-contact areas. ■ Right-or left-hand tablet arms in three

Dorsal seating provides remarkable comfort with a flex back that adjusts automatically to the user's movement.

Designed to accommodate laptop computer use, the large laptop tablet arm provides extraordinary size, strength and support.

sizes feature plywood cores, clear lacquer edges and laminate tops in a choice of eight colors. Designed specifically for laptop computer use, the flip-up style laptop tablet arm measures a generous 19" x 22-3/4". When less workspace is needed, choose from either the oversized 17" x 20-1/2" tablet arm or the standard tablet arm at 12-1/2" x 20-1/2". Oversize and standard tablet arms are available in fixed or flip-up styles. ■ Square tubular frames have a tough, scratch-resistant powder-coated finish. Frames are available in four colors and have a non-stacking seating clearance of 14".
