

*Dorsal® Student Desk*

## Dorsal® Student Desk

The Dorsal Student Desk is an attractive alternative to floor-mounted products and traditional tablet arm chairs. The ergonomically designed supportive seat with the flexing backrest, which flexes to the relax position, is a time-proven design that promotes long-term comfort.

The desk provides large working surfaces that are inclined for the proper relationship to the seat. With sturdy tubular steel frames, Student Desks require little or no upkeep. An optional bookrack is suspended under the table surface.

The Dorsal seating is available without upholstery, with upholstered seat only, or with upholstered seat and backrest.
