

Maestro™ Chair

Maestro™ is the economical alternative for all high-density stack chair needs. ■ With its polypropylene seat and back, and solid steel chrome or powder-coated frame, Maestro is an ideal choice for offices, auditoriums, training rooms and cafeterias. ■ The chair offers superior durability with a color infused seat and back that will not show wear even under heavy-usage conditions. The polypropylene seat and back are available in 18 colors to complement any environment. ■ A dolly is available for convenient stacking, transport and storage, and is designed to allow 45 stacked chairs to pass through a standard doorway. ■ Maestro meets the toughest

A handle integrated in the sculpted seat back allows for ease of movement and stacking.

A variety of glide options are offered to accommodate various applications.

industry standards set by BIFMA, and is backed by KI's Ten-Year Structural Integrity Warranty.
