

TORSION® on the Go!® Seating ■

Torsion® on the Go!® Seating

- It flexes for comfort.
- It follows you anywhere.
- It flips up and nests for storage.

WORKING
FOR
YOU

■ Spontaneous seating. Seating where and when you need it.

TORSION® on the Go!® Seating

Is it a task chair?

A folding chair?

A side chair?

A stacking chair?

Or a conference chair?

Yes.

(This is one chair designed to be whatever you want it to be.)

The seat flips up and nests for storage.

Seat handle –
Grab the back by its “lip”. The handle at the top lets you easily roll it wherever you want.

Nesting design –
With the seat flipped up, chairs nest one inside the other. Roll the “stack” of chairs from room to room. Or store until needed.

Flex arms (Optional) –
Lean back and the arms follow you, because they’re attached to the articulating back.

■ **Chairs aren't supposed to be able to do all this.**

It flexes for comfort. And, follows you anywhere.

Thick seat cushion –
Sit down and relax for an extended period with the soft yet firm support you need.

Oversized castors –
Turn to a colleague, slide over to reach a file or roll the chair to a room down the hall.

Flex back –
Lean back and the back moves with you for maximum comfort.

Forget everything you know about chairs. And, take a look at this. Torsion on the Go! By Giancarlo Piretti.

The new design isn't just there for looks. It's a new kind of functionality. The thick seat cushion and flexible back make Torsion on the Go! comfortable enough to use as a task chair. Yet, it's affordable enough to use as a side chair. That same seat flips up to enable the chair to nest for storage. So, it's there when you need it...gone when you don't.

Torsion on the Go! It's the do anything, go anywhere chair. And, that's why it's showing up everywhere. Offices. Conference rooms. Training rooms. Break rooms. Your room.

Smooth and supportive back flex for outstanding comfort.

■ Go ahead and push us around.

Chairs nest for compact storage. Simply pull one chair out for quick use.

The tablet surface can accommodate a full-size laptop.

For added convenience, the tablet partially opens for ease of exit.

Tablet folds away and to the side effortlessly when not in use.

Go from the nested position to a classroom setting in minutes.

Catch a Torsion on the Go!

This is one chair you have to see to believe. Check it out on our web site. Call for more information. But, make sure you get a chance to see it up close and in person.

Since everything else about the chair is remarkably flexible, so is its look. The frame can be finished in bright chrome or in any one of 26 powder-coated colors. The back is available upholstered or in polypropylene (warm grey or black). It's available with or without arms. And, can be upholstered in standard KI fabrics. Pallas® Textiles or C.O.M.

**You make the rules.
We make the rest.**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what the market needs. And, we make it. The same applies to our service, distribution...everything we do. KI solutions work, because we're working for you.
