

Piretti Xylon Chair

The Piretti Xylon chair offers a contemporary design in guest seating. The chair features an articulating back and finely detailed contoured wood seat and back. Its spring action backrest provides comfort during extended use. Chairs are available in wood or metal frame versions. Metal frame models stack eight high and can be chrome plated or powder coated in a spectrum of colors. Seats, backs and wood frames are made of beechwood with natural finish or cherry, oak, mahogany and walnut stains. The Piretti Xylon chair is ideal for mass seating applications, including libraries, training rooms, food service areas and guest seating.
